

International Group Locations

This report lists International Group decision making 'Hubs', together with the application 'Spokes' that supply them with applications, and the types of application they supply. It also lists In House Spokes that retain some decision making capability.

Hub Categories

Hub: a post that receives, and makes decisions on, all types of application registered in two or more spokes.

Standalone: a post that makes decisions on applications registered in that location.

Spoke Categories

CP app centre: a visa application centre that has been outsourced to a Commercial Partner.

In House Spoke: a visa application centre run by UKBA. Some In House Spokes retain some residual decision making capability for VIPs, officials and emergency cases.

BEC: a Biometric Enrolment Centre that captures biometrics on behalf of UKBA (operated either by Host Government or Commercial Partner).
