I have answered your questions in the order they appear in your request:

- **Please can you direct me to the authority's current ICT strategy?**

The Digital Strategy for the Leicestershire ICT Partnership can be found online at:

<https://moderngov.hinckley-bosworth.gov.uk/documents/s9385/Digital%20Strategy%20for%20Leics%20Shared%20Services.pdf>

- **Does the authority use or is planning to use Azure or any other cloud hosted services?**

Yes

- **If you are currently using, or planning to use Azure, AWS or Google; what are your main drivers and goals?**

The strategy documents says: "We will embrace and adopt investment opportunities in new technologies e.g. cloud".

To that end we will consider Azure, AWS or Google solutions on a business case by business case basis, as part of our objective to: "Drive EFFICIENCY in the development and delivery of effective digital services."
