

Request:

I am looking at 2019, 2020 and 2021 data and would appreciate it if you could provide the data for each separate year.

Missing persons

1. How many persons were reported missing during 2019, 2020, 2021? what percentage were Men, Women and Children?

(please provide data for each individual year)

2. How many of the reported missing person cases were resolved (person found) during 2019, 2020, 2021?

(please provide data for each individual year)

Resolved cases

3. How many cases were resolved within the first month, within three months, within six months and within nine months from the date they were reported missing during 2019, 2020, 2021

(please provide data for each individual year)

Staff absences

4. How many Police Officers were reported absent due to sickness NOT relating to COVID-19 during 2019, 2020, 2021 (please provide data for each individual year)

5. How many Police Officers were absent due to self-isolation relating to COVID-19 during 2020, 2021 (please provide data for each individual year)

6. How many Police Staff were absent due to self-isolation relating to COVID-19 during 2020, 2021 (please provide data for each individual year)

Questions 1, 2 & 3

Supporting Information:

- Numbers supplied are the numbers of missing persons reports completed.
- Cases outstanding are to date within each year.
- On the minority of records where a found date is blank – the return interview date has been used in order to calculate the length missing. Where an individual is missing in one year, they may have been found in the subsequent year.

2019:

9935 missing person reports. 9926 resolved

Gender (groups)	Adult	Child	Total
1. Male	20.52%	29.03%	49.49%
