**Subject:** RE: Waste leaflet and questionnaire

On the cover letter, think might be better to start with more of the positives, something along lines of

- Option to Extend food collection throughout the area
- Option to collect glass
- Option for separate collection of paper and card, which will give substantial savings which can be invested in other services
- Option for three weekly black bin collection (need to put somewhere that separate weekly nappy collection), which will give substantial savings which can be invested in other services
- Charging for garden waste collection

Thanks

James

Hi

We've been testing the leaflet with residents, based on this feedback I've made some very small changes to the leaflet (new version attached).

We've also added in another question on the questionnaire about the proposed charge for garden waste (new version attached).

Please can you review these versions?

Thanks

Karen.

Hello James

You were forwarded a copy of the waste consultation leaflets on the 7th and these need to be finalised by monday lunchtime go to print next Tuesday to meet the deadline for consultation commencing.

Whilst we have booked a meeting which is scheduled for wednesday to discuss the consultation the leaflets need to go to print therefore could we do any discussions regarding the content of these etc over email this weekend.

On the consultation I briefed a packed clifton parish council meeting on it last night ( they were packed to discuss the LDF) and focussed on the costs, savings and benifits of getting recycling up and not collecting half full black bins and did not recieve any negative comments. Surprised to say they were all nodding in agreement and supportive including on green waste collection charging.

I look forward to your comments on the leafletes.

Ian

Subject: Waste leaflet and questionnaire

Hi

Please find attached the draft leaflet copy and questionnaire for the waste consultation.

The leaflet will be delivered to every household during the first two weeks of the consultation. We are encouraging people to complete the questionnaire online but making paper copies available at libraries, HWRC etc.

We will be testing both documents out with some residents shortly.

Karen.
