## TO OPEN USB

Select Run TotalLock.exe

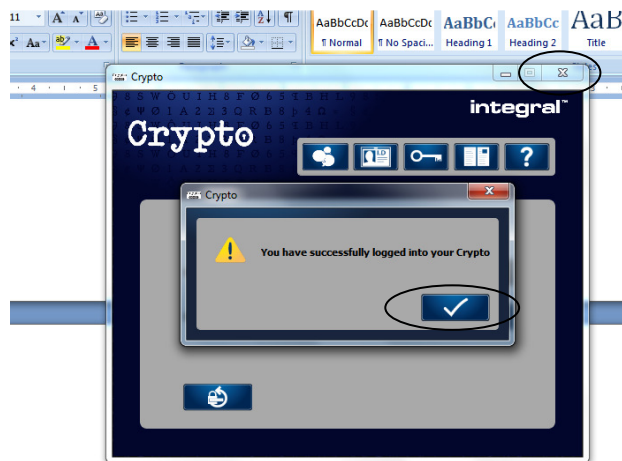

Click unlock padlock next to password

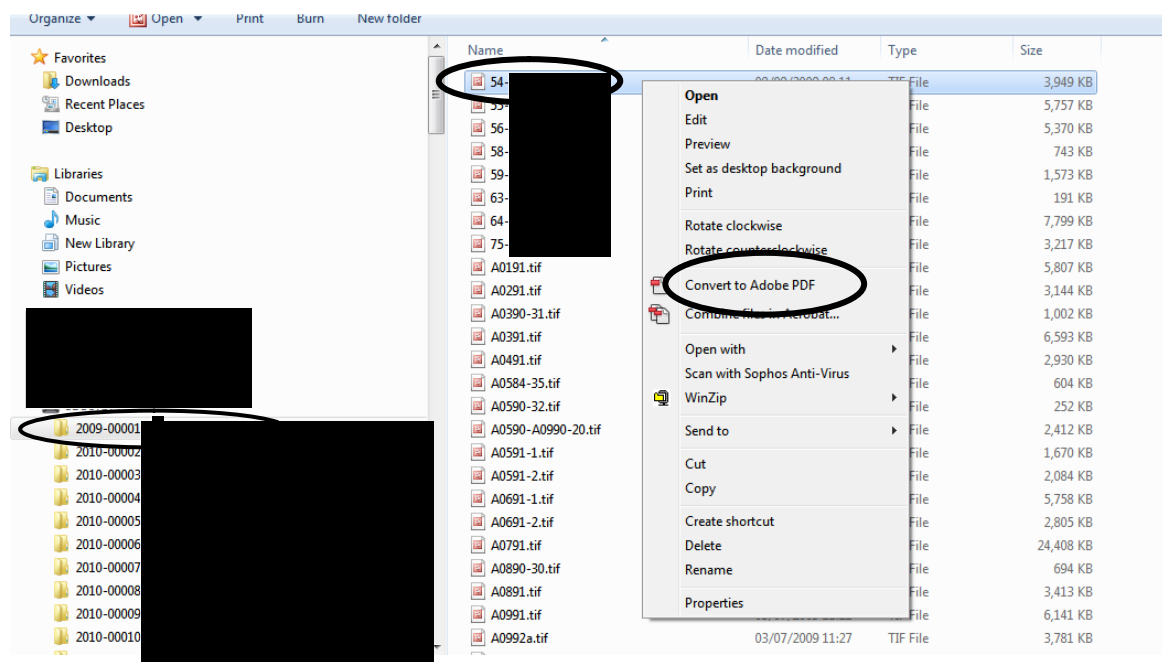

Password; ------------

Click Blue Tick

Click Blue Tick

TO OPEN .tif FILES

.tif files within the folders need to be opened by right clicking and selecting Convert to Adobe PDF.

If not opened up this way you miss seeing the whole file, for example file ████████████ has 219 pages.

 Adobe ProDC is used to open these files.

Alternatively if you have Windows 7 or 10 you can open with Window Photo Viewer to see the whole document.
