**INTENTION TO MAKE EXPERIMENTAL ORDER**

**The Waltham Forest (Prescribed Routes) (Coppermill region No. 2) Experimental Traffic Order 2020,  
The Waltham Forest (Charged-For Parking Places) (Amendment No. 48) Experimental Order 2020  
The Waltham Forest (Free Parking Places, Loading Places and Waiting, Loading and Stopping Restrictions) (Amendment No. 48) Experimental Order 2020**

Dear All,

On behalf of the Council of the London Borough of Waltham Forest, and in accordance with the usual consultation procedures on traffic and parking schemes, I wish to draw your attention to the Council's intention to implement the above *experimental* traffic scheme and associated Orders for your consideration and comment before making of the Orders.

I attach, for your information, a copy of the public *draft* experimental Notice of Making (EXPNoM), Statement of Reasons (SoR) and draft Traffic Orders and associated drawings.

The general effect of the experimental Orders will be to introduce three modal filters (closure to motor vehicular traffic except for cycles) and in the case of South Access Road E17 – no access except local buses - within the Quietway 2 - Argall Ave - South Access Road and Coppermill regions E17– all with associated waiting restrictions and parking place amendments.

Please could you send any comments or observations in writing, specifying the grounds on which (where relevant) they are made, to my email address and the engineer(s) leading on the scheme:

[REDACTED]

Can you please provide your comments by **Thursday 13<sup>th</sup> August 2020**. I appreciate the short notice, however, If you do require further time please can you let me know before the deadline; or alternatively you can provide comments of objections after the scheme becomes live from 27<sup>th</sup> August 2020 for up to a period of 6 months.

The Orders are being introduced on an experimental basis in order to assess their effectiveness before considering whether to make permanent Orders.

Regards

[REDACTED]
