Camden Town Hall Extension

Argyle Street

London

WC1H 8ND

Dear Sir/Madam,

RE: 2012/2895/P

I am a resident of Camden and I would like to strongly urge the Council to support this application for the redevelopment of Centre Point. I am especially pleased to see that this proposal means that St Giles High Street will no longer be used. Additionally, I would wish that the regeneration of this area is done as soon as possible to improve the quality of the environment for the arrival of Crossrail.

Yours faithfully,

Rebecca Warren  
Chesterton Humberts.

Dear Sir/Madam,

I would like to inform you of my approval of application 2012/2895/P, I am very much satisfied that it is planned that St Giles High Street will be replaced. It can often be very dangerous, and with the introduction of two-way traffic on Tottenham Court Road it will become redundant.

I therefore recommend this application to you and very much hope that it will be approved.

Yours faithfully,

Christopher Lay.

Dear Ms. Peck,

I am writing in support of the planning application (2012/2895/P) to redevelop Centre Point. I think it is an excellent idea in order to regenerate the area, considering the amount of people that will be arriving due to Crossrail.

I hope that our council will approve this, because I think it is something that we greatly need.

Thanks in advance

Dear Sir/Madam,

This letter is to indicate my support of application 2012/2895/P. Centre Point in my opinion has never really 'worked' as a building, however, I think these proposals will allow it to be put to good use. The chance to build a significant amount of affordable housing makes the application all the more attractive.

I think these proposals are well thought through and therefore I am pleased to be able to say that I give them my whole-hearted support.

Yours faithfully,

Fiona CARTLEDGE

Re: 2012/2895/P

Dear Planning Department,

This letter is to encourage you to continue with the plans to extend the Centre Point Tower and build a pedestrian area at the base of the building.

I support these plans as I find St Giles High Street unsafe I would like to see it made more secure.

I am also concerned that the current layout will be unable to cope with the increases in pedestrians that will be associated with the new Crossrail development planned for Tottenham Court Road.

Regards,

Sam Rhodes

Dear Ms Peck,

I am writing to support application 2012/2895/P.

Centre Point is a lovely building, but a horrible area. Clearing up the traffic at the bottom and putting housing in the building is a great idea and will lead to more affordable homes being built in the borough.

I hope that you are supporting the application and can convey my support to the decision makers.

Thanks,

Dear Sir/Madam,

I am writing to you regarding the application to regenerate the Centre Point building and surrounding area (reference: 2012/2895/P)

The current layout is dangerous to pedestrians, not to mention dirty and outdated. The two-way system working on Tottenham Court Road will make St Giles High Street redundant, greatly improving the current layout.

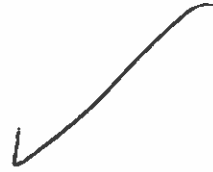

What is more, the improvements to Centre Point will greatly enhance the area and it is important that the planned public area around Centre Point is included in these plans. I encourage you to adopt these plans.

Yours faithfully,

*Handwritten signature*

Dear Ms Peck,

I am writing to you about the planning permission scheme taking place at Centre point and in the surrounding area. I would like to register my support for the project (ref: 2012/2895/P).

The project would breathe new life into the existing St Giles High Street. The existing street is old and dangerous for pedestrians.

The major changes at the base of Centre Point would also be a welcome addition to the area.

Finally, those leaving the planned Tottenham Court Road station ought to be greeted with a modern pedestrian area, rather than the existing layout.

Yours sincerely,

Nate Baga .

Dear Ms Peck.

I am writing to you regarding a piece of planning permission, reference number 2012/2895/P.

The first issue I would like to raise is that the public square at the base of Centre Point would be an excellent addition to the area. The changes which are already taking place in the area, including the new Crossrail development, ought to include the proposed public square.

Furthermore, when the plans for Tottenham Court Road station are completed there will be 80,000 people passing through the area per day, it is therefore vitally important that the proposed plans for Centre Point take place.

Yours sincerely.

2012/2895/P

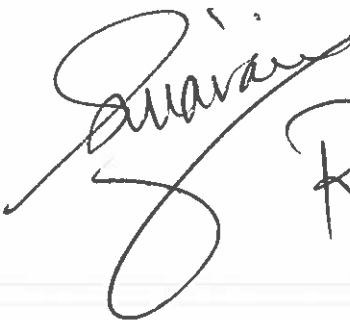

Dear Ms. Peck,

I am writing in support of the above quoted project at Centre Point and the associated area.

The new station at Tottenham Court Road will greatly increase the number of people passing through the area every day. Up to 80,000 will pass a day when the new Crossrail improvements go ahead. It is therefore vitally important that the area be regenerated.

What is more, the current site is hazardous and noisy. The planned public square around Centre Point would solve these issues and I welcome the changes.

Yours sincerely,

Dear Amanda Peck,

This letter is regarding a piece of planning permission, reference number 2012/2895/P.

I would like to show my support for a number of reasons. Firstly, I believe a public space close to the Centre Point Tower would be a welcome addition to the area. Secondly, it is important that the safety and cleanliness of St. Giles High Street be improved. Finally I understand that the council is concerned about traffic modelling and that these concerns are holding up the process. The council should move forward as quickly as possible with this scheme and shouldn't let this issue curtail the process.

RECEIVED  
04 SEP 2012

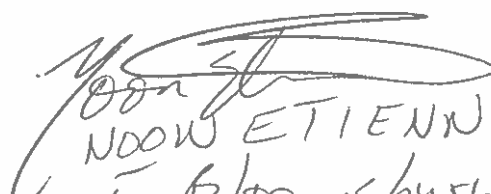

Dear Ms. Peck,

I would like to show my support for the proposed pedestrian area at the base of Centre Point Tower and associated improvements to the roads and buildings in the area (ref. 2012/2895/P).

The existing space is not used in a sensible way and I feel it would put to better use if a two-way road layout were included. This would make the one way system in place on St Giles High Street unnecessary and would free up the area for pedestrians. These improvements would greatly benefit those who live, work or travel in the area.

I look forward to seeing these plans come to fruition.

Best regards,

  
Yoon ETIENNE

Re: 2012/2895/P

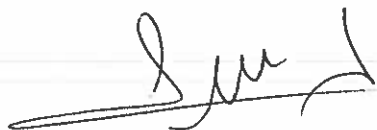

Dear Sir/Madam,

I am writing to show my support for the proposed developments of St Giles High Street, the surrounding roads, and the Centre Point Tower.

I welcome these plans as I am concerned with overcrowding once the new station on Tottenham Court Road is completed. If 80,000 people are going to be traveling through this location a day I think it is important that a pedestrian area be included in the redevelopments.

I hope these plans go ahead and the associated improvements take place.

Yours faithfully,

2012/2895/P

Dear Ms Peck,

I am writing to you to show my support for the proposed developments of the Centre Point building.

I understand that the existing plans have been delayed by TFL who are struggling to model the proposed road layout. Camden Council should not allow this to stifle the plans, which should go ahead regardless.

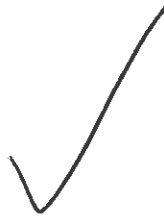

I also believe the existing layout on Tottenham Court Road should be reworked to move traffic away from St Giles High Street. This would allow a pedestrian area to around the base of Centre Point which would vastly improve the location.

Yours sincerely,

---

2012/2895/P

Dear Sir/Madam,

This letter is regarding the plans to develop the old Centre Point building at Tottenham Court Road.

My primary concerns surround the existing road layout; this ought to be transformed into a two-way system making the old one way design redundant.

What is more, the new Crossrail development which is planned is likely to bring up to 80,000 people through the area every day. This makes the development all the more important.

The changes planned for the area ought to include a public space at the base of Centre Point to complete the regeneration of the area.
