Search context (It is useful for us to know why the information is needed)

A new Equality Impact Assessment (EQIA) is being undertaken for the proposed changes to the Gender Recognition Act 2004 (see more [here](#)). This will be published alongside the forthcoming consultation. This search is part of gathering evidence for this EQIA.

Topic of search (Please provide details of your search requirements)

I need to identify research on women-only services, locations, or provisions and any reasons for which there might legitimately need to be provision for trans women to be excluded from these (either as users or service providers).

Suggested keywords

Trans, transgender, women, female, discrimination, disadvantage, service, exclude, venue, location, provision, provider, user, behaviour, prison, school, health, healthcare, refuge, biolog*, reproduct*, quota, education, changing, facilit*, accomodation

Please describe in a sentence what you are looking for

Evidence on legitimate bases on which trans women might need to be excluded from some women-only services, locations, or provisions, or on which their presence might put non-trans women at a disadvantage.

Please indicate any research you may have done in this area to avoid duplication. If you know of any organisations, sources or pertinent papers, please give details.
