Attorney,

Previously we have structured the AG's box slightly differently to that of the SG to reflect the different kinds of work that the Law Officers received. Let me know if you're happy to continue in this way or whether you'd like something different.

For Action

- SFO Ministerial Strategy Board – draft agenda for your approval

- [REDACTED]

For Information

- [REDACTED]
- [REDACTED]
- Cases referred to CPS complex casework unit – as requested

Meetings Tomorrow

- CPS North East – 9.30-10.30, MS Teams. The briefing includes a draft tweet for you to approve. Following your conversation with [REDACTED] this afternoon we will also prepare a script in case you wanted to record a short video for twitter later in the morning. It's also worth noting that this virtual visit includes an all staff Q&A session that will focus on covid as a theme.

Updates

- I normally use this section to flag anything of particular topical interest, e.g. interesting judgments or media reporting, or to highlight significant pieces of upcoming work e.g. requests for LO advice. [REDACTED]
