

We, the BIZ Youth Council and young people of the BIZ, would really like this electronic play equipment as the old is not good and is in the wrong place. Sometimes you can't even get to it because the field gets very soggy.

As there is poor transport to and from our village we need things in the village for us to do.

Apart from the BIZ (Billinghay In-Zone), a youth drop-in centre on Monday evenings, there isn't much to do here, so this equipment would be really great to have.

**Thank You**
