Thanks. That would be very helpful.

On a slightly different matter but also to do with Nabarro LLP is there letter of 3 July to me (copied to you) regarding the unavailability of their Counsel for the proposed inquiry in week commencing 8 October. As the Planning Inspectorate have already identified an Inspector for that week I just wondered if you/your clients' are going to adhere to that date rather than accede to their request for it to be moved to the following week.

Regards
xxxxx

Thank you for this. I am working on a draft letter and will be in touch as soon as possible.

Kind regards

We spoke. You have received a direct copy of the letter of 6 July to the Secretary of State from Nabarro LLP on behalf of Fortress Limited seeking a Rule 17 Direction that Crossrail Limited reviews its environmental impact assessment and updates its Environmental Statement to reflect an error in relation to an area of land numbered plot 7 on the land plans.

Before reaching a decision on whether to make such a Direction, we would be grateful for your/your clients' views on the matter. Clearly we need to reach a decision speedily, so would be grateful for an early reply and certainly no later than Monday 23 July please.

Kind regards
xxxxxx
