

Freedom of Information Request

Reference Number: EPUT.FOI.19.1210

Date Received: 20 August 2019

Information Requested:

We are looking at the current performance of in-patient care facilities under Child and Adolescent Mental Health Services (CAMHS) in the UK. Please provide average monthly data between (and including) Jan 1st 2016-August 1st 2019 for each question.

Can you put this information into an excel spreadsheet please?

I would like to know:

- 1) What were the modal and mean average waiting times for patients (in days) referred to CAMHS in-patient services? A monthly or yearly break down is fine - depending on what you record.

[The Trust's inpatient CAMHS services do not record waiting times. Due to the specialist nature of the units, clients who are unable to find a bed in our units would be placed elsewhere.](#)

- 2) How many beds do you have in your in in-patient services for CAMHS patients? A monthly or yearly break down is fine - depending on what you record.

[As at the beginning of the calendar year:](#)

[2016 – 37](#)
[2017 – 38](#)
[2018 – 38](#)
[2019 – 38](#)

- 3) How many patients were treated in CAMHS in-patient services each month? Please provide a figure for each month between (and including) Jan 1st 2016 and August 2019.

[Please find attached response.](#)

- 4) Looking at all the patients you treated in CAMHS in-patient services, what were the medical conditions they were treated for. Please provide a list of conditions for each year between (and including) 2014 and 2019.

[Please find attached response.](#)

- 5) How much money have you spent per year on in-patient services (CAMHS)?
Please provide a figure for each year between (and including) 2016 and 2019.

Financial year end	£
2016-17	6,590,535
2017-18	10,506,042
2018-19	9,550,482

- 6) How many of the patients under your care (CAMHS) have been transferred to private hospitals through your NHS trust? Please provide a figure for each month between (and including) Jan 1st 2016 and August 1st 2019.

EPUT does not provide CAMHS community services; therefore we would not place anyone in a private placement.

As the trust doesn't have any CAMHS community teams, we as an organisation would not be in the position to be attempting to admit a client and not having the capacity.

EPUT don't have the responsibility of placing inpatients into a private placement, as this is undertaken by NHSE.

Publication Scheme:

As part of the Freedom of Information Act all public organisations are required to proactively publish certain classes of information on a Publication Scheme. A publication scheme is a guide to the information that is held by the organisation. EPUT's Publication Scheme is located on its Website at the following link
<https://eput.nhs.uk>
