Request

[1] Can you provide listing of and membership of the integrated service teams in place at present?

This should include the numbers of service users & carers that form part of these teams.

[2] Can you also indicate where each of these teams fit into the HSCB Organisational setup?

This should show the HSCB structure up to and including Director level.

Response

Formal and informal integrated service teams include professional input from Public Health, Social Care, Allied Health, Performance Management and Finance. These teams do not have dedicated input from service users and carers.
