Project Updates & Communications

Welcome to the Norfolk and Suffolk Change Programme site

This site has been developed to keep all officers and staff across both forces up to date with the developments of all Norfolk & Suffolk Change Programmes, to introduce you to the Joint Strategic Change Unit, and to provide you with answers to some of the questions we are frequently asked.

The Change Programme is coordinated through the Joint Strategic Change Unit headed by ACC Sarah Hamlin. The team coordinates activity across all joint working projects, as well as single force initiated workstreams, and works closely with relevant business areas as well as specialist departments such as ICT, HR and Finance to ensure all work is fully supported.
