spoke to Mr Rawlins, explained that i havent witnessed stat nuisance or antisocial behaviour. Mr Rawlins stated that 20 people in association and as all of these people are impacted then surely it is antisocial behaviour as definition is something that causes nuisance, alarm or distress. Explained again that I havent witnessed anything

at a level for us to take further action.

I spoke to Mr [REDACTED] who said that there has been very noisy events where he had to come inside from having a BBQ it was so loud, he said that the weight of the shot/gunpowder made for louder bangs, a 1 and 1.5 oz makes louder bangs. I offered noise equipment but he refused, he just wanted to let me know.
