Date: 24 April 2019

Dear Ms Gomez,

Thank you for your email of 9 April 2019 on the subject of 5G being a risk to the UK human population.

You have asked us to clarify whether MOD is here to protect the humans. It is not Ministry of Defence (MOD) policy to provide opinions on subjects but to provide recorded information to answer Freedom of Information requests.

Dstl (the Defence Science and Technology Laboratory) is an Executive Agency of the MOD. We work to deliver science and technology for the defence, security and prosperity of the UK. We do not deal in matters of health, which is the responsibility of the Department of Health and its relevant agencies; we have directed you to the Department of Health in our previous correspondence.

Please see the following link to our Annual Report and Accounts, which should provide you with some background and understanding of the work Dstl does:

<https://www.gov.uk/government/publications/defence-science-and-technology-laboratory-annual-report-and-accounts-2017-to-2018>

Please also see the following link to information about the MOD more widely:

<https://www.gov.uk/government/organisations/ministry-of-defence>

If after reviewing these links, you are able to identify your specific area of interest, please contact either Dstl or MOD and we will be pleased to consider your correspondence again.

Yours sincerely,

A handwritten signature in dark ink, appearing to be a stylized 'S' or 'L' followed by a flourish.

Dstl Secretariat (Risk, Assurance and Governance Team)
