Dear Mr Colbert

I am writing in response to your request for information regarding the below. Your request has been handled under Section 1(1) of the Freedom of Information Act 2000. In accordance with Section 1(1) (a) of the Act I hereby confirm that the CNC/CNPA does hold information of the type specified. The answer is zero.

I'm writing to you under the Freedom of Information Act (2000) to ask that you please disclose to me the operation names of any large scale protest action that you have been called out to as a force over the last two calendar years (2021, and 2022).

It is only basic details of these operations I require. I'm not asking for internal documents, workings, technologies used, number of officers deployed, cost of this, or anything other than the following:

Operation name, date, the name of the group involved (this could span anything from white nationalists to environmentalists - XR, BLM, National Action, EDL, NBU, Insulate Britain, Women's Rights marches, anti-military Marches like the anti-Elbit Systems action recently, and things like this).

I'd also like to know what constitutes a "large scale operation" please. I have been made aware that forces may not be able to answer, for example, questions about smaller operations like protests of one person, so I've been advised by multiple forces that large scale

operations carry a much higher chance of being answerable within cost limit.

Again, dates, and the focus of the action, and if possible (within cost limit) the amount of people arrested during these actions in the limited 24 month period is all the information I am seeking for this request.

If possible, and if it isn't exempt, I'd also like a list (if it exists in this format) of the groups that are of most interest to you regarding these large scale operations, or which exist on a list of monitored groups, again this could include any type of organisation but I'm really only looking for the bare bones basics of the most of note (top ten, or top five) groups that are of concern to your force.

The Civil Nuclear Constabulary is a specialist armed police service dedicated to the civil nuclear industry, with Operational Policing Units based at 10 civil nuclear sites in England and Scotland and over 1600 police officers and staff. The Constabulary headquarters is at Culham in Oxfordshire. The civil nuclear industry forms part of the UK's critical national infrastructure and the role of the Constabulary contribute to the overall framework of national security.

The purpose of the Constabulary is to protect licensed civil nuclear sites and to safeguard nuclear material in transit. The Constabulary works in partnership with the appropriate Home Office Police Force or Police Scotland at each site. Policing services required at each site are agreed with nuclear operators in accordance with the Nuclear Industries Security Regulations 2003 and ratified by the UK regulator, the Office for Nuclear Regulation (ONR). Armed policing services are required at most civil nuclear sites in the United Kingdom. The majority of officers in the Constabulary are Authorised Firearms Officers.

The Constabulary is recognised by the National Police Chiefs' Council (NPCC) and the Association of Chief Police Officers in Scotland (ACPOS). Through the National Coordinated Policing Protocol, the Constabulary has established memorandums of understanding with the local police forces at all 10 Operational Policing Units. Mutual support and assistance enable the Constabulary to maintain focus on its core role.

We take our responsibilities under the Freedom of Information Act seriously but, if you feel your request has not been properly handled or you are otherwise dissatisfied with the outcome of your request, you have the right
