

NORTH EAST LINCOLNSHIRE - LIST OF STREETS

Where the street status description is shown as "public" this indicates that at least part of the street is maintainable at public expense. Where the street status description is shown as "prospect" this indicates that part or all of the street is subject to a Highways Act 1980 agreement with the developer, but not yet publicly maintainable.

The street record state "permanently closed" refers to the record state and is attributable to either the physical closure of the street or a change to the street record which has necessitated the creation of a new (replacement) record.
