

MANHATTAN DRIVE SKETCH PROPOSALS, CAMBRIDGE

SKETCH PROPOSALS KEY

- 1. Switch Pedestrian & Cycle Lanes on the bend.**
- 2. Remove double yellow lines on this side of road.**
- 3. Remove clutter of 5x concrete bollards & replace with heavy standard trees (Field maple, as per existing. Cobble – lined tree pit as existing.**
- 4. Re-surface vehicular turnaround & Cutter Ferry Lane up to bridge (create even surface in the process).**
- 5. Re-surface both pedestrian & cycle ways on this corner of Cutter Ferry Path (creating even surfaces).**
- 6. Remove single section of lane separator barrier (between pedestrian & cycle ways.**
- 7. Separate cyclists from pedestrians with single course of granite setts.**
- 8. Improve visuals around blind corner by switching out existing seven-panel stretch of timber panel fencing with 'hit & miss' semi-visually-permeable panels of fencing to mitigate existing 'blind corner'.**
- 9. Remove clutter of 2x surplus sign posts.**
