Dear Mr Kelly,

Thank you for your email dated 16 April 2016 in which you ask the following: -

"Would it be possible for you liaise with the Advisory Council on the Misuse of Drugs (ACMD) to reclassify Co-proxamol as a controlled drug? This would have a profound impact for all the patients that were included on the MHRA's 'Named Patient List' and were still being prescribed Co-proxamol until November 2015. It would also reduce the price of the medication dramatically".

Please be aware that although you were originally sent a notification stating your request would be handled in accordance with the Freedom of Information Act (Fol), your request is not asking for recorded information. As a result we have taken the decision to forward your request onto the relevant department to handle as general correspondence and provide you with the appropriate response.

Yours sincerely,

P. Zebedee
