29 June 2017

Dear Jo

PRIVATE and CONFIDENTIAL

RE: Freedom of Information Request received 8 June 2017

I am responding to your recent enquiry. You requested the following information:

I wondered if you could give me the following information of your Maternity department over the last 12 months.

What clinical system do they use to record information?

The Maternity module on the Trust's PAS system.

How are notes recorded for Postnatal care i.e. on paper or electronically? **Both**

Number babies born per year

2014/15 – 1,938 babies born to 1,906 women

2015/16 – 1,959 babies born to 1,934 women

2016/17 – 1,872 babies born to 1,872 women

Number of midwives - both antenatal/postnatal and community (if different)

84 individuals – 64.22 WTE. This Trust does not split midwives between community and hospital.

Overall cost of travelling expenses for community midwives

£28,906.03

Amount spent on agency staff in Maternity

This Trust does not use agency staff in Maternity.

The Payment by Results data for the last 12 months by month. The information I would like to see is outlined:

The standard payment value per patient for each category (standard, intermediate and intensive).
These are nationally agreed tariffs and can be obtained from NHS England at
<https://www.england.nhs.uk/>

Antenatal: The number of standard, intermediate and intensive cases and the percentage of those collected/missed and their monetary value in £

Please refer to attached document

Postnatal: The number of standard, intermediate and intensive cases and the percentage of those collected/missed and their monetary value in £

Please refer to attached document

I hope this provides you with the information requested. If you are not satisfied with the way in which your enquiry has been addressed please write in the first instance to the Chief Executive, Trust Headquarters, at the above address.

Yours sincerely

Gill Foott
Corporate Support Officer
Dorset County Hospital NHS Foundation Trust
