Dear D Mudge

Access to Information Request – Request no EIR2022/00072

Thank you for your request for information, which we received on 10 March 2022.

Your request has been considered under the Environmental Information Regulations 2004 (the EIRs).

You specially asked for the following information:

“Please send me the Great Crested Newt Mitigation licence 2017-29917-EPS-MIT-3 including all licence-specific documents that are attached, referenced or included with the licence such as photographs, workplans, diagrams and methods.”

Please find attached in the zip file the information requested above.

Some of the information is being withheld as it falls under the following exceptions of the EIRs:

Regulation 12(3) - Personal Information

The names, signatures, and contact details of private individuals are considered by Natural England to be personal information as defined by the UK General Data Protection Regulation (UK GDPR) and the Data Protection Act 2018.

The First Data Protection Principle says that personal data shall be processed lawfully, fairly and in a transparent manner. Guidance published by the Information Commissioner, states that when considering fairness in relation to disclosing personal information under FOIA [and EIR] it will usually mean considering:

- whether the information is sensitive personal data;
- the possible consequences of disclosure on the individual;
- the reasonable expectations of the individual, taking into account: their expectations both at the time the information was collected and at the time of the request; the nature of the information itself; the circumstances in which the information was obtained; whether the information has been or remains in the public domain; and the FOIA [and EIR] principles of transparency and accountability; and
- any legitimate interests in the public having access to the information and the balance between these and the rights and freedoms of the individuals who are the data subjects.

When personal information is collected from individuals by Natural England we do not inform them that the information will remain confidential or that it may be released, however, we believe that there is an expectation of confidentiality.

The release of personal information and any subsequent contact may cause unnecessary or unjustified distress or damage to the individuals if released, and they have a reasonable expectation of confidence.

Natural England is therefore satisfied that the information requested fits the definition of personal data and that its release would be 'unfair' under the meaning of the first Data Protection Principle and should not be released.
