I spoke this evening to [REDACTED] @ Apple, copied. He kindly said that Apple is keen to work with us, and we agreed we'd look for areas of potential cooperation. A few in particular:

- we should be connecting with them on the app, to get their insights. [REDACTED] - [REDACTED] kindly agreed to put you and your team into contact with the right people at Apple

[REDACTED] - [REDACTED] will pass us any particularly brilliant technologies and ideas that come his way on remote monitoring

[REDACTED] - [REDACTED] said Apple would be open to us putting Coronavirus. Information on eg Apple maps, like testing centres or anything else helpful.

[REDACTED] - was there anything I've forgotten? I've a lot on my mind!

My office - we agreed we should touch base in a week or so. Can you fix?

Matthew
