

Both questions are essentially the same as all students who do not meet the entry requirement for each Part III subject must go through an appeal process. Our Part III entry requirements are published annually here:

<https://www.natsci.tripos.cam.ac.uk/students/fourth>

As we are still going through this process for the current academic year, therefore we have provided numbers for 2018-19 to 2022-23. Please note that 2020-21 is not included as this was heavily affected by the pandemic with many subjects not being classed at Part II.
