Date 31/10/19

I would like to know how many public recycling bins there are in the area, broken down by the type of waste they accept, and separately, the number of publicly accessible general waste bins.

26/9/19 applicant additional information ...

Further to my request, in addition to the number of bins, please can I also have the number of sites they are located at? E.g., if there are two bins both next to each other, this would be one site, but two bins.
