

Sir,

I wish to lodge my objection to this planned proposal to build a car park of 96 cars for Lidl proposed supermarket and objection for the proposed supermarket itself.

The proposal is inappropriate in itself as we have numerous supermarkets in the area as well as numerous convenience stores that rely on passing trade.

The roundabout itself is already congested and to add another store would create even more congestion.

The land itself is part of our 'Greenbelt' which you have stated on several occasions you will defend!! Or are you again blowing bubbles to the residents of Wirral?

There is a strong objection from the businesses in Upton Village against this proposal!!!
