

Planning and Building Dept.

Re:- Plans for Supermarket and proposed car park Arrowe Park Road.

We the undersigned wish to voice our very strong objections to the proposal to build another supermarket near the already very congested Sainsburys roundabout in Arrowe park road Upton.

To do this mature trees of which there few in this area would have to be removed and a public right of way to be turned into a car park.

This roundabout is one of the main routes for ambulances to and from Arrowe Park Hospital. Further delays for them could be very detrimental to many.

More traffic in this area would cause further pollution and there are several schools near by .

Hope that you will give this your urgent attention and please reconsider this proposal.

Yours Sincerely
