Dear Sir Christopher

Covert Surveillance

Thank you for your letter of 3 June sending me HH Dr Colin Kolbert's report reviewing the Council's management of covert activities.

We found Dr Kolbert's report constructive and encouraging. We are pleased to accept his recommendations and I shall ensure that they are implemented. We recognise the importance of enduring that are strong procedures and controls in place to govern the use of covert surveillance and will keep our systems under close review to ensure that they are fit for purpose.

I am grateful to you and to Dr Kolbert for your help in this matter.

Yours sincerely

Antoinette Jackson
