ATISN 16510 - Application of Exemptions

This Annex sets out the reasons for the engagement of **section 29** of the Freedom of Information Act and the subsequent consideration of the Public Interest Test.

I have decided to withhold the following information:

Part 3:

A list of the businesses that Welsh Government officials met with at:

- a. SEMICON West in California
- b. London FinTech Week

Section 29(1) The Economy

The exemption states that information is exempt if its disclosure would, or would be likely to prejudice:

- (a) the economic interests of the United Kingdom or of any part of the United Kingdom, or
- (b) the financial interests of any administration in the United Kingdom

This is a qualified exemption; therefore, a public interest test has been undertaken.

Public Interest Test

Public interest arguments in favour of release:

The Welsh Government acknowledges the general public interest in openness and transparency that release of this information would engender. Furthermore, I recognise that there is public interest in understanding the process by which the Welsh Government generates investment into Wales and that the release of the information could lead to greater transparency and openness in the way the Welsh Government conducts business which can improve accountability and public trust. I also acknowledge that there is public interest in the value for money of attending events and exhibitions, especially ones that are not taking place in Wales.

Public interest arguments in favour of withholding:

One of the key objectives of the Welsh Government is to grow the Welsh economy. The Welsh Government invests significant resource in identifying and engaging with companies that are making investment decisions, to try to ensure that Wales is considered as part of those decision-making processes.

We believe that the early release of information relating to discussions with potential investors would be likely to prejudice those discussions with the result that some, or all, of the potential investors decide to invest elsewhere. The disclosure of information at such an early stage in discussions would be likely to instil a sense of distrust amongst potential investors at the Welsh Government's ability to maintain a confidence. The result of this would be the potential loss of new investors, and a subsequent loss to the economy of Wales.

I believe therefore that the balance of the public interest falls in favour of withholding the withheld information for the reasons outlined above.

For this reason, the exemption at s29(1) is engaged.
