Dear London Ambulance Service,

Please find below and attached details, which was previously send to Paul Hammond for your attention and comments.

Would you please kindly inform us, by 24th July 2020, whether you have any objections to the scheme or whether you have observations to make on the plans.

Yours sincerely,

Traffic Orders Team

Subject: Traffic Order Consultation A - TO/30/010/NP - Experimental Point Closures - Olive Road Area

Dear Sir or Madam,

Ref: TO/30/010/NP - Experimental Point Closures (Emergency Vehicles and Cycles Permitted) – Olive Road Area

The London Borough of Brent, as part of the Active Travel Programme - Low Traffic Neighbourhoods for the delivery of new schemes prioritised in our draft COVID19 Transport Recovery Plan, propose to introduce point closures (Emergency Vehicles and Cycles permitted) in the following streets:-

1. Agave Road;
2. Ashford Road;
3. Ivy Road;
4. Mora Road;
5. St Michaels Road.

Attached for your observations are copies of the plans for your perusal.

These measures are also to promote walking and cycling in the borough, support public transport and reduce car travel.

We would be pleased if you can kindly inform us, by 24th July 2020, whether you have any objections to the scheme or whether you have observations to make on the plans.

Many thanks.

Kind regards,
