Dear Electra,

Response to Freedom of Information Request

I write further to your Freedom of Information Request dated 25th October 2017. Please find below the information that you have requested. Please accept our apologies for the delay in responding to your request.

No.	Question	Response
1	Which web filtering product does the school use? (e.g. Smoothwall Secure Web Gateway, Smoothwall UTM, RM Safetynet, Lightspeed Web Filter, etc.)	Smoothwall UTM
2	Is your web filtering system purchased directly by the school or provided by the LEA?	Purchased by the school
3	Does your web filtering system run on a server on the school's premises, or is it hosted off-site? (In the cloud, at the LEA's data centre, etc.)	On the school's premises
4	What is the total duration of your web filtering contract? (e.g. 1 year, 3 years, etc.)	3 Years
5	What is the total amount paid by the school for the web filtering system over your whole contract period? (i.e. If you had answered question 4 as "3 years" and pay £1000 per year, the answer to this question would be £3000.)	£5749
6	Do the costs quoted in question 5, include anything besides web filtering? (e.g. that cost may also include the internet connection itself, or other services, in addition to the actual filtering product.)	Full UTM package including firewall
7	If your filtering system is hosted on the school's premises, do the costs quoted in question 5 include the hardware that the filtering software runs on? (When an existing filtering contract is renewed, schools can often choose not to replace the existing hardware. In that case, the answer would be "no.")	Yes
8	What speed of internet connection does the school have?	100Mbit Business line
9	How many students does the school have?	1257
10	How many staff does the school have?	133
11	What year did your current filtering contract begin? (this helps me evaluate how the costs have changed over time for long contracts).	2017
