Dear all

Please find attached a copy of the Guidance to Support Delivery of the Living Wage to Care at Home and Housing Support. COSLA, supported by officers from SOLAR, Procurement, Social Work and Directors of Finance have jointly developed this guidance with Providers and the Scottish Government.

It does not direct any particular mechanism for delivering the Living Wage Commitment but provides an overview of the issues and options available for consideration.

While it is hoped that this document will be useful in supporting your local discussions, Local Authorities will each have to take their own legal and procurement based advice and assess any risks according to local circumstance.

The guidance has been shared with your chief social work officers and care provider contracts officers. If you have any questions about the guidance then please feel free to contact me and I will look into these for you.
