Felling Licence Application (Forestry Act 1967) – CB388414
Strathallan
Westwoodlands - Crofthead; Wester & Easter Peddiesfauld

We have completed the initial assessment of your Felling Licence Application and details will now be displayed on the Public Register for a period of 28 days to allow any interested party to comment. You can view details of your application on the Public Register by visiting:

<http://www.cms.forestry.gov.uk/publicRegister/caseDirect.jsf?caseReference=CB388414>

Your application will remain at the consultation stage until 28-Mar-2014. Before we approve the licence we will take account of any comments that we receive.

If no material issues are raised in the consultation stage, we will approve your Felling Licence subject to the conditions specified below.

Please review these conditions carefully. If you agree to them please let me know in writing within one month of the date of this letter. If we do not hear from you by this date we will assume your agreement and we will issue the Licence accordingly.

Similarly, if you have any queries about the conditions, please get in touch with the Woodland Officer as soon as possible.

The Woodland Officer dealing with this application is

Yours sincerely

This is not a Felling Licence. It is an offence to begin felling with-out a licence.

Felling Licence Conditions

Felling Licence Application (Forestry Act 1967) – CB388414 Strathallan Westwoodlands - Crofthead; Wester & Easter Peddiesfauld

1. Site Preparation Conditions

The land on which felling took place must be cleared, drained and prepared as required to allow restocking as specified in section 2.

2. Restocking Conditions

The table below details the restocking specification for each of the felled areas. The restocking must be completed by 30-Jun-2020.

Felling site(s)	Restocking proposal	Species	% site	Est. area (Ha)	Density (per Ha)	No. of trees	Alternative restocking site
easter P'fauld	NR - Restock by natural regeneration	Sitka spruce	50	.6	2500		
easter P'fauld	NR - Restock by natural regeneration	Birch	50	.6	2500		
wester P'fauld	NR - Restock by natural regeneration	Sitka spruce	20	.14	2500		
crofthead	NR - Restock by natural regeneration	Sitka spruce	50	4	2500		
crofthead	NR - Restock by natural regeneration	Birch	50	4	2500		
wester P'fauld	NR - Restock by natural regeneration	Birch	80	.56	3000		

3. Maintenance Conditions

For a period of ten years from the restocking date the trees must be protected from damage and adequately weeded to allow effective establishment. Failures or losses must be replaced as necessary to maintain a stocking density not less than was specified in section 2, evenly distributed across the site. All maintenance operations must comply with the rules and practice of good forestry.

4. Nature Conservation Conditions

No conditions specified for this site
