### Part 3 – Proposed Restocking

We normally expect the area to be restocked unless you are thinning. Under the Forestry Act 1967 as amended, we usually attach conditions to the licence to secure restocking. We will discuss these conditions with you and will require your formal agreement to the conditions before we issue the licence. With reference to the Felling Operations table (Part 2b), please provide information about your proposal for each restocking area where felling is taking place. Please show these proposals on a restocking map.

#### Restocking Proposal Table:

Use the table below to tell us how you intend to restock the areas felled. Please note that you can group felled areas together that are to be restocked in the same way. You must show a restock proposal for 100% of the felled area. If you intend to restock an alternative area, you must submit a map. You must give only one species choice per row

Felling Site/Cpt (s)	Restocking proposal	Species (one per row)	% of site	Area (ha)	Density (stems per ha)	No of Trees	Alt Restock Site/Cpt (s)
CROFTHEAD	NR	SS	50	4	2500	10,000	
		BI	50	4	2500	10,000	
WESTER PEDDIEFAULD	NR	BI	80	0.5	3000	1,500	
		SS	20	0.2	2500	500	
EASTER PEDDIEFAULD	NR	SS	50	0.6	2500	1,500	
		BI	50	0.6	2500	1,500	
Total Area:				9.9			

- The Restocking Proposal should be either to Replant the Felled Area (RF), Restock by Natural Regeneration (NR), Plant an Alternative Area (AA), Restock with Coppice Regrowth (CR), Restock with Individual Trees (IT), Plant an Alternative Area with Individual Trees (AAIT), or Create Designed Open Ground (OG)
- If you are intending to deforest the site, state Do Not Intend to Restock (DIR) in Restocking Proposal column. Note that your licence is unlikely to be approved if the site is to be deforested (see the Scottish Government's Policy on Control of Woodland Removal).

**Please provide further information about the proposed restocking:**
