Felling Licence Application (Forestry Act 1967) – CB388414
Strathallan
Westwoodlands - Crofthead; Wester & Easter Peddiesfauld

Thank you for your application for a felling licence.

David R. Anderson, one of our Woodland Officers, has been assigned to the case. We will keep you informed about how your application is progressing, however if you have any further queries please do not hesitate to contact us at this office.

We will publish details of your application to fell trees (except for thinning only applications) on our Public Register for a period of four weeks. We will also consult with other relevant organisations during this period.

Under the provisions of the Forestry Act 1967 we must make a decision about your application within 3 months, although we may seek your agreement to extend this timescale if processing takes longer than expected (e.g. due to issues that may be raised during the consultation period).

IMPORTANT

Please note that if you intend to seek funding for Restructuring Felling under Rural Development Contracts– Rural Priorities, you must have an approved felling licence and an approved contract for Sustainable Management of Forests Restructuring Felling BEFORE starting any felling.

Finally, do not start any felling until you get your approved felling licence.

Yours sincerely
