

14 December 2016

By email to:
Ms Sophie Marshall

Dear Ms Marshall,

Thank you for your Information Request dated 9 December 2016 which has been dealt with under the provisions of the Freedom of Information Act 2000. You requested any information the Liverpool City Region Combined Authority may hold in respect of -

"What location is 0151 709 9887 that phone box number? It's in Liverpool city centre somewhere and I just need to find out where?"

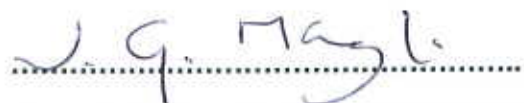

Liverpool City Region Combined Authority would advise that both itself and our constituent authorities do not hold any information of relevance to your request nor is there any operational or legislative requirement for us to do so.

We would however advise that the majority of public telephone boxes continue to be operated by British Telecom (BT) and you may therefore wish to submit your request to them. Information on how to contact BT is available via the following weblink – www.bt.com

Additionally, independent third parties organisations occasionally provide information of relevance to requests of this nature, a relevant website being – <http://www.ukpayphone.com/>

This concludes our response.

Yours sincerely,

Jeanette McLoughlin
Interim Monitoring Officer,
Liverpool City Region Combined Authority
