Chris,

I am just back from annual leave and so chasing up the owners.

I know that the drainage company have tried to get on site twice and been blocked by local residents. I am not sure if they have managed to get on site, but will find out.

Regards

Hi Pete,

Please can you give me an update as to how the drainage investigation works are progressing please?

Many thanks in advance,

Chris

Chris,

Please see the e-mails and photo's below from the applicant.

The neighbours have yet again thwarted the applicant's attempt to get Land Science to the site and undertake the further investigation works requested by Tim B. Please see the e-mail and photo's below.

As you can see, we're dealing with some very unreasonable locals. I don't know if there is anything that ESCC HA can do to facilitate access as it's public highway. If not, the owner might need to take private legal action to ensure they can get to their land and undertake the further works.

Regards
