Description of advice sought The proposal has been amended: <ul style="list-style-type: none"> The application description has changed to reflect three main changes to the application, these are the removal of the 'further development plot' to the south of the site, the integration of what was previously a separate community building into the stadium itself, and a change in the proposed use of the amenity space to the east of the stadium. Revised plans and documents have been received from the applicants which supersede those previously submitted, these are revisions of the Building Heights Parameters Plan, Access Plan, Illustrative Masterplan, Transport Assessment, Travel Plan, and an addendum to the Environmental Statement. The proposal now includes a 61 by 48 multi use games area.			

Please can I have your comments on these amendments?

Date Response Required	9 March 2012

	None	<input type="checkbox"/>

Response to Issues Raised

My concern is that we still do not know how the facilities that have been available to Rugby League for community and professional player development at Huntingdon Stadium will be replaced and whether these will meet requirements. The plans for the stadium itself looks fine however we need to understand how the needs of York City Knights and community Rugby League will be met before we are able to comment further
