Subject: RE: urgent plnning information?

[REDACTED] -- Your email to 'planning comments' of 19th March has been forwarded to me for a reply. I am sorry that I was not able to reply immediately. I was not in the office last week.

The site you refer to is 'green belt' land in this Council's statutory development plan - the Unitary Development Plan. This means that the chances of a residential development being acceptable are remote. In theory there is a possibility that the green belt designation could change in the future but my view is that this is unlikely. There are no current plans for this to happen.

I hope this gives you the information you need.
