Subject: [EXT] CONFIDENTIAL - MKC Blakelands V2 @ 6-5-19

Dear MKC Colleagues,

1. I attach revised **Framework** and created a new document – “**Stakeholder Comments on what the Blakelands Review should consider**”.
2. I have taken all the emails you have sent me and comments on the Framework and put them into the Stakeholder doc. This will help us track all comments by participants and ensure we respond - and I am now asking you to consider consultation on this second document at the same time as the Framework document. I am hoping that setting things out this way achieves 2 things a) good/easy tracking and b) complainants/customers can see themselves in an MKC Review document and can see all the questions MKC Management are also asking.
3. I also need to understand if/what further consultation you want to do on these 2 documents?
4. On the Framework – I looked carefully at what in the main script should be changed (TD comments important) – otherwise I have taken all other good concerns/questions and put them in the second Stakeholders document
5. All new words in the Framework are **in Red**. It is a clean V2
6. I also attach the version you all sent me – V1a
7. Please see missing things in **Green**
8. I really cant start until the very end of June. My original document sets out my terms £600 a day. Please note we are effectively doing both a Blakelands Review and DM Procedure Review.
9. I am hoping you will be able to lend me some “admin support” over the Review period and access to “legal research”. I don’t have a start date – but after 26/6.
10. Notwithstanding 9 above - please understand that if you want to use me for this first bit then someone else, that will be fine. I don’t want us to work together on this delicate matter unless we are all sure. I will go with whatever path you would like to tread.
11. Please let me know what you all think/want – best if you could funnel through via a single contact.
12. Thanks to Sharon and Nazneen for telephone conversation and documents sent regarding the JR (which I still need to understand).
13. Thanks to Tracy for a series of good comments on Review procedure – yes library of docs would be good and a timeline linked to the docs.
14. I also attach possible linked planning/legal cases – maybe of interest.

Best regards Marc
