Good Evening All

I can speak with Committee Services about this. These minutes need to be accurate and I agree that if there is a discrepancy between the minutes and the debate there could be significant issues down the line. Leave it with me. Justin/Sam I may come back to you for further clarification.

Thanks

Katy

**Subject:** FW: 11 May DCC Minutes

Dear All,

Sam and I have been dealing with fallout from the recent Blakelands decision and note the draft DCC minutes as inaccurate.

*“The concerns of the residents were recognised as were the comments of the planning officer which demonstrated that the proposal was for the most part policy compliant however where a subjective view was required there remained questions.”*

According to us, and critical to the current challenges to the decision and officers' actions, Officers disagree that no subjective view was required for the decision. It should be clarified in the minutes that this was NOT the position of Officers. Even, to state that this was the view of all Members on the DCC could complicate ongoing challenges.

How do we best deal with this?

Kind regards,
