Our Reference: FOI 128/11

23rd August 2011

Dear Mr Watson,

I am writing with reference to your request for information regarding Project Lantern, dated 25th July 2011, made under section 1(1) of the Freedom of Information Act.

You asked for the following information:

Please send me the following documents relating to Project Lantern:

- 1. The final report on the project.*
- 2. "Lantern Technical Options Paper – evaluation of fingerprint sensor technologies" by Ambika Suman.*
- 3. "Lantern performance and scalability report", (CCN014R2-20.2-1.0 dated 17 July 2007).*
- 4. Any later revision of (3) above provided to NPIA in response to recommendation 4 in "Lantern Project – The Way Forward" (IDT004-0101-project way forward - project board recommendations 080403 v0-1).*
- 5. "LANTERN Service Expansion Test Summary Report" (Document ID 4 in section 4.2 of "Contract Change Note 050 IDENT1-LANTERN Service Expansion").*
- 6. Any data held by NPIA on the Fingerprint False Match Rate (FMR) and False Non-Match Rate (FNMR) achieved in the field during the LANTERN trial.*

We can confirm that the NPIA holds some of information falling within the description specified in your request. However, we are unable to provide you with the information you have requested as we consider the cost of complying with your request would exceed the cost limit specified in regulations. See below for explanation.

To provide any/ all data held by the NPJA on Fingerprint False Match Rate (FMR) and False Non-Match Rate (FNMR) achieved in the field during the LANTERN trial, I would require the search of a number of document storage areas, including: archive, shared drives, personal folders. An electronic search of the storage areas would not be sufficiently accurate to find any/all information relevant to your request. There are an estimated 5000 documents that would need to be reviewed and it is estimated that analysis of each document would take a minimum of one minute per item, although the retrieval of some records may take longer, which would increase the overall time taken. Taking the lower estimate, of one minute document, this would constitute approximately 83 hours work, equating to a cost of £2075 which is well in excess of the £450 cost limit specified in the Fees Regulations for FOI requests.

However, within the cost limit we would be able to provide a response to questions 1 -5 and, if you were able to refine the parameter of your final question, for example, by type of document or specific type of data sought, we may also be able to provide a response.

Application of Cost Exemption

Section 12(1) of the Freedom of Information Act does not oblige a public authority to comply with a request for information if the cost of complying exceeds a cost limit, known as the 'appropriate limit', which is specified in the Freedom of Information and Data Protection (Appropriate Limit and Fees) Regulations 2004. For public authorities such as the NPJA, this cost limit has been set at £450. These costs are limited to those that an authority reasonably expects to incur in:

- determining whether it holds the information requested,
- locating the information or documents containing the information,
- retrieving such information or documents, and
- extracting the information from the document containing it.

The Regulations also specify that costs which are attributable to the time spent by persons undertaking any of the activities mentioned above are to be calculated at a standard rate of £25 per hour. This represents the estimated cost of one person spending a maximum of 18 hours (2½ working days) dealing with a request.

Your right to complain

We take our responsibilities under the Freedom of Information Act seriously but, if you feel your request has not been properly handled or you are otherwise dissatisfied with the outcome of your request, you have the right to complain. We will investigate the matter and endeavour to reply within 20 working days. You should write to:
