I should have said that I agree that it's not ideal but, in the circumstances, I agree.

Hi , we don't know where the Council meeting will be held after July which makes it difficult to secure quotes. There is also a restructure which will lead to more of the work being done in house.

See attached waiver for consideration (both as the relevant chief officer and as legal compliance). Whilst it's relatively low value, this has been an area of challenge in the past. It's not clear to me what the delay is and why we can't go out for 3 quotes?
Thanks
