Hi [redacted],

Can you confirm for me some indications we've received that news on the puberty suppressing hormones ban is imminent?

I hope you can appreciate that as organisations that supported vulnerable young people to meet with yourselves and then not having any further follow since the meeting is going to mean we will have a lot of questions and need to provide a great deal of support to those young people if the ban is to be extended.

It would assist us a great deal to have an element of advanced notice so that we can put this support in place.

Thanks,  
Pip

Subject: RE: Young people roundtable - 31 October

Dear [REDACTED],

I was wondering whether there had yet been a chance to review the materials that young people and parents gave during the meeting and when I might advise them to expect a response?

Thanks,  
Pip
