

In Brief

URGENT: DPA Policy wording

This action is now over due. If you have updated your DPA policy wording for CIE please ensure your MID Account Manager has been advised.

DPA Policy Wording

Temporary Additional Vehicles

To avoid your customer being stopped by the police or receiving an insurance advisory letter in error - please ensure TAV's are added to MID. If you are not currently doing this please notify your MID Account Manager.

Transport Minister Supports Industry Work to Cut Uninsured Driving

As 2011 and the launch of CIE draws ever closer MIB continues to keep the subject high on the political agenda. Last month cracking down on the UK's uninsured drivers was the hot topic under discussion when the Under-Secretary of State for Transport, Mike Penning MP, visited the Bureau in Milton Keynes.

Check you're ready for CIE

To ensure that you are prepared for CIE and using consistent information, we have prepared an 'Insurer Checklist' that outlines some of the essential tasks needed to be completed before CIE is launched in January 2011 and what materials we will provide to support this.

Keeping Track of Vehicle Records

As MIB are working in close partnership with the Driver & Vehicle Licensing Agency (DVLA) to deliver Continuous Insurance Enforcement (CIE), we thought it would be useful to take a look at what DVLA does. This is the first of a series of occasional articles giving an insight into the work of DVLA and focuses on the processes for registering a vehicle, notifying a change of keeper and how CIE fits into that.

DVLA to launch 'Stay Insured' Campaign website for CIE

The Government's Directgov website has been displaying CIE information since the summer - but work is now in progress to develop this into a campaign website to support the launch of CIE. The site will be more interactive than the current pages, include FAQ's and continue to use the now familiar url www.direct.gov.uk/stayinsured - so there is no need change any existing communications or documents that already contain this web address.
