Hello [REDACTED]

I am fine with relocation in principle; provided the developers bear the cost for relocation works, gain permission from parks, carryout highway and parking amendment works i.e. providing drop down kerbs for bin collections and extending double yellow lines to restrict parking / blocking access to bins.

What is the reason for relocation? I am concerned that placing these bins in that park might create hiding or dark spaces for ASB. Happy to discuss further if required

Phil - FYI

Thanks

Hi [REDACTED],

We are currently designing proposals as part of Quietway Grand Union and are exploring the options to relocate the bins on the footway of Delamere Terrace to a location in the Westbourne Green Park (see image below)

This is subject to acceptance from the parks, but can you confirm that this relocation would be acceptable?

It is also proposed to raise the table at this junction and remove the fence and pave the area where the bins could go

Regards,
