Waste Transfer Notification: As part of our service Walker Fire (UK) Limited will remove condemned end-of-life products in accordance with European Waste Classification code 16 05 05 from customer premises unless requested otherwise. Fire extinguisher sizes and quantities as listed on this certificate as condemned will be removed as loose metal containers with their contents in Walker Fire service vehicles by 4.00pm on the day of the service and transferred to Walker Fire (UK) Limited, Unit 81, Roman Way Industrial Estate, Preston. PR2 5BB.

Walker Fire (UK) Limited Preston and all regional centers are registered exempt from The environmental permitting regulations under S2 Storage of Waste in a secure place Reg.No.WEX243206 (England and Wales) and Reg.No. WML/XS/1096657 (Scotland).

Walker Fire (UK) Limited is registered as an Upper Tier Carrier Broker Dealer under The Waste (England and Wales) Regulations 2011 Regulation 28. Reg.No. CBDU215423

By signing this certificate customers indicate that they have fulfilled their duty as the current holder of waste by applying the waste hierarchy as required by Regulation 12 of The Waste (England and Wales) Regulations 2011 or The Waste (Scotland) Regulations 2011 and that the information overleaf has been completed correctly and that the service engineer has been advised of any special handling requirements. Please inform Walker Fire (UK) Limited if you are the holder of an environmental permit, have a registered waste exemption or are registered as a waste carrier. Waste transfer notification should be retained for at least two years.

Transferor Standard Industrial Classification code:

PLEASE NOTE - To fully complete the waste transfer notification it is the responsibility of the client to advise Walker Fire (UK) Ltd of their Standard Industrial Classification (SIC) code.
