Notes:

- 1) Any manager who fulfils an Operational management/supervisory management role and who has the following qualifications (Emergency Medical Dispatcher, 1st Responder, Ambulance Care Assistant, Ambulance Technician, Registered Nurse and Ambulance Paramedic) and who has undertaken or is due to undertake additional training as a operational, tactical and strategic commander can wear the rank indicated by their role above. Although a role may be listed above only those managers who fulfil the operational criteria are eligible to wear an operational rank marking. If a post holder holds a clinical ambulance qualification and are not listed above then they are not eligible to wear a rank marking
- 2) Ambulance Control staff wear a dark blue epaulette. Ambulance Control supervisor 1 pip and Ambulance Control National Duty Manager 3 pips.
- 3) PTS staff wear a light blue epaulette. PTS and Regional Scheduled Care Control Team Leader 1 pip and PTS Area Service Manager (non generic only) 3 pips
- 4) SORT staff when involved in certain incidents may wear black on dark green epaulette.
- 5) The Operational Management Team (OMT) will review this document annually or approve changes as and when a change is recommended
