Dear Ben

I am writing regarding your recent request for information under the Freedom of Information Act 2000.

Request:

- 1. What number of patients from you CCG have been referred to a tier 2 service in the last 12 months**

The tier 2 services are available via self-referral or recommendation from a health professional (not a formal referral process). To date, approximately 218 people have accessed the tier 2 services provided by Slimming World, Get Slim and Fit Fans. Of these, 16 have been signposted by a health professional.

Manchester Foundation Trust (MFT) provide a combined Tier 2 and Tier 3 service. The CCG does not hold referral data for this service. Data for this service would need to be requested directly from MFT. Requests for MFT can be sent to foi@mft.nhs.uk.

- 2. What are the names of the tier 2 services which available to patients in your CCG**

Currently available Tier 2 services are: Slimming World, Get Slim and FitFans. Some availability via a combined Tier 2/3 specialist weight management service provided by MFT.

I hope we have answered your questions. However, if you don't feel that we have, please contact us at the above address.

Yours sincerely,

FOI Team
