

Our Ref: FOI 1508

Date of request: 30th March 2021

Subject: Tier 2 weight management services

Hampshire, Southampton and Isle of Wight CCG confirms that it does hold the information requested; please see response below.

The information provided in this response is accurate as of 7th April 2021 and relates to the area of Southampton.

FOI Question	CCG Response (Area: Southampton)
1. What number of patients from your CCG have been referred to a tier 2 service in the last 12 months	During 2020/21 due to the Covid-19 pandemic, and in line with national guidelines, performance monitoring requirements have been relaxed. Please also be aware that given the face to face nature of the Tier 2 Weight Management programme the service was also suspended for periods during the pandemic again in line with national guidelines. Therefore this information is not available.
2. What are the names of the tier 2 services which are available to patients in your CCG	WW Ltd provide the universal Tier 2 weight management service for adults and Slimming World provide a weight management service specifically for pregnant women. Both are accessible by clinician recommendation or referral only.
